Industry Software: MS Office Suite, Claude Code, Lovable, Tableau, Jira, Confluence, Figma, AWS, Git, LLMs, Salesforce.

Certifications: [Google Data Analytics Professional Certificate](#), [IBM Design Thinking Practitioner](#), [Tableau Desktop Specialist](#).

WORK EXPERIENCE

Duke Community Affairs

Product Manager

Durham, USA

Oct 2025 – Apr 2026

- Directed a “Build vs. Buy” analysis for a 500+ user platform by synthesizing 20+ stakeholder interviews into structured product requirements, aligning product and engineering teams to justify an internal pivot that eliminated external API dependencies.
- Developed a zero-to-one AI-personalized intern onboarding platform with role-adaptive learning paths, quizzes, and stakeholder directories, reducing ramp-up from 2 weeks to 3 days for 15 interns.

Barclays PLC

Senior Product Analyst

Pune, India

Oct 2022 – Jun 2025

- Increased platform penetration by 35% across institutional workflows by defining requirements for 6 analytics tools, aligning cross-functional teams across product and engineering around a prioritized roadmap to close data accessibility gaps.
- Executed migration of 130+ ETL workflows from Hadoop to AWS by building a comprehensive build-vs-buy business case, securing cross-functional stakeholder alignment and delivering £500K in annualized cost savings.
- Designed a unified Tableau reporting platform on AWS by consolidating 4 siloed dashboards, coordinating with data scientists through UX redesign and SQL pipeline migration to reduce reporting overhead by 60% and improve cross-team project tracking.
- Built a centralized risk-monitoring dashboard in Tableau delivering actionable, real-time insights to senior stakeholders across 6 siloed teams, automating data consolidation workflows and reducing manual retrieval time by 35%.
- Documented and deployed an automated client reporting pipeline reclaiming 50+ hours/month in operational capacity, authoring end-to-end validation specs and driving cross-functional adoption to achieve 100% regulatory compliance accuracy.

Credain Networks Private Limited

Product Management Intern

Mumbai, India

Feb 2022 – Sep 2022

- Formulated the Go-to-Market strategy and value proposition by co-authoring a data-backed whitepaper and conducting rigorous market research, securing interest from 6+ pre-seed investors and advancing the product vision to funding stage.
- Launched a functional MVP to 3 pilot clients in 5 months, authoring user stories and managing agile backlog prioritization.

PROJECTS

AxNano ([AxOptimise Dashboard](#))

Product & Strategy Consultant

Durham, USA

Jan 2026 – Apr 2026

- Synthesized 6+ discovery interviews into a \$500M TAM, mapped 8+ competitors, and built a \$5M ARR roadmap for the Series A.
- Engineered the MVP in Claude Code, defining requirements and UI/UX for an operator dashboard that cut batch costs by 47%.

Veridian – AI Carbon Tracking App ([Web App](#))

Founder

Durham, USA

Nov 2025 – Present

- Shipped a 0-to-1 carbon tracking app with 10 Claude API functions and EPA/DEFRA-anchored emissions analysis across 14 screens.
- Designed gamification loop (Green Points, streaks, 16 achievements) across 5 sprints to drive measurable daily carbon reduction.

LEADERSHIP EXPERIENCE

Tableau Software

Tableau Student Ambassador

Mumbai, India

Sep 2022 – Sep 2023

- Facilitated data literacy for 100+ participants by directing an intensive 5-day Tableau boot camp, designing a curriculum that translated complex data concepts into practical industry workflows.
