EDUCATION

Duke University

Master of Engineering Management (CGPA: 3.9/4.0)

Durham, USA

Aug 2025 – May 2027

- Coursework: Managing AI in Business, Design Thinking, Design Climate, Competitive Strategies, Marketing, Finance.

University of Mumbai

Bachelor of Computer Engineering (CGPA: 3.43/4.0)

Mumbai, India

Aug 2018 – Jun 2022

- Coursework: Machine Learning, Project Management, AI, Cloud Computing, Big Data, Natural Language Processing.

SKILLS AND CERTIFICATIONS

Skills: Product Lifecycle Management, Business Case Development, OKRs, Roadmap Planning, User & Market Research, Executive Communication, System Design, A/B Testing, User Stories, Stakeholder Management, Technical Documentation, Agile, UX.

Technical: SQL, Supabase, AWS, API Integration, Google Analytics, Excel, Notion, Tableau, Jira, Confluence, Figma, Git, Salesforce.

AI-Native Development: Claude Code, LangGraph, Replit, Agent Evaluation, Multi-Agent Workflows, Linear, RAG Systems.

Certifications: [Google Data Analytics Professional Certificate](#), [IBM Design Thinking Practitioner](#), [Tableau Desktop Specialist](#).

WORK EXPERIENCE

AxNano, Inc. (deep-tech startup destroying PFAS “forever chemicals”)

Durham, USA

Product Manager Intern

Jun 2026 – Present

- Engineered AxOptimise 0-to-1 with Claude Code as an AI coding agent, an optimization engine and operator dashboard reducing per-batch treatment costs by 43%, validated through an independent model audit that caught 5 critical defects before client delivery.
- Designed an AI-native Memory OS with agent-enforced citation, converting fragmented SharePoint, email, and meeting content into a decision base of 13+ decisions and 6 tracked hypotheses, onboarded by 5 teammates as the single source of truth.

Duke Community Affairs

Durham, USA

Product Manager

Oct 2025 – Apr 2026

- Directed a “Build vs. Buy” analysis for a platform serving 500+ users by synthesizing 20+ stakeholder interviews into structured requirements, justifying an in-house pivot that unified the customer journey and eliminated third-party redirects.
- Developed an AI-personalized intern onboarding platform, cutting ramp-up time from 2 weeks to 5 days for 10 interns.

Barclays PLC

Pune, India

Senior Product Analyst

Oct 2022 – Jun 2025

- Built a consolidated leadership KPI dashboard unifying 6 directors' team metrics into one Tableau view with two-level drill-downs, replacing siloed manual reporting and becoming the standing report in weekly leadership reviews.
- Created a propensity-scoring Tableau dashboard for the bid management team by defining client personas and purchase-likelihood models, lifting win rate from 67% to 82% and reclaiming 40+ hours weekly for a 10-person team by retiring Excel reporting.
- Executed migration of 130+ ETL workflows from Hadoop to AWS, delivering £500K in annualized cost savings.
- Documented and deployed an automated client reporting pipeline with end-to-end validation specs, reclaiming 50+ hours/month in operational capacity and sustaining zero errors across 30+ weekly and monthly regulatory reports over a six-month review period.

Credain Networks Private Limited

Mumbai, India

Product Management Intern

Feb 2022 – Sep 2022

- Formulated the go-to-market strategy for Credain NEO, a cross-border payables/receivables netting platform offsetting intercompany balances across subsidiaries in 5 currencies, securing interest from 6+ pre-seed investors and advancing the product to funding stage.
- Modeled and stress-tested the netting logic in Excel for a pilot client with 12 subsidiaries, running it against edge cases across currencies and transaction volumes to identify where the model broke, then launched the validated MVP to 3 pilot clients in 5 months.

PROJECTS

Veridian – AI Carbon Autopilot ([iOS/Android App](#))

Durham, USA

Founder

Nov 2025 – Present

- Diagnosed manual logging as the core adoption failure for a feature-complete carbon-tracking app, then repositioned it around a guilt-free, habit-forming design thesis, validating the pivot through 4-user beta testing before committing to a rebuild.
- Delivered motion-based auto-detection and a confidence-scored EPA/DEFRA emissions model by directing AI coding agents, replacing manual data entry entirely and verifying performance on physical device hardware.

LEADERSHIP AND VOLUNTEERING EXPERIENCE

Tableau Software

Mumbai, India

Tableau Student Ambassador & Mentor

Sep 2022 – Sep 2023

- Facilitated data literacy for 100+ participants by directing an intensive 5-day Tableau boot camp, designing a hands-on curriculum that translated complex data concepts into practical industry workflows for students and early-career analysts.
